Paper Trade Journal Volume 140—Year 1956
Index to Feature Articles

Bleaching

	Page	Date
Automatic Continuous Manufacture of Hypochlorite Solutions—H. S. Fisher and R. E. Carlson	24	May 7
Constant Chlorine Pressure Gives Uniform Bleaching—R. Wheless	46	Feb. 20
Instrumentation of Bleach Plants—E. J. Cole and M. Todd	38	Nov. 12
New Improvements in Chlorine Dioxide Generation	36	Jun. 11

Board Manufacture

A Board Mill Stock Cleaning System—E. L. Stentz	18	Jul. 2
Automatic Control of Dryer Drainage—S. K. Pratt	24	Jan. 23
Balanced Pressure Differential Offered in New Drier Drainage System	58	Aug. 13
Careful Planning Marks the Progress of J. P. Lewis and Brownville Board	26	May 28
Cylinder Food Boards from Southern Pine	42	Nov. 26
Expansion at La Tuque Features Widest Liner Board Machine—John C. W. Evans	24	Aug. 6
First Complete Description of East Texas Mill	28	Jul. 30
Great Northern Develops New Product from Chemi-Groundwood — D. F. Pollard	24	Oct. 29
How and Why of Rubber Covered Rolls —II The Cylinder Machine—R. M. Leighton	34	Jun. 25
How High a Pressure Can You Put In Your Old Dryers	42	May 7
How Insulation Board Stock is Made at Fir-Tex—V. M. Anderson	56	Aug. 13
New Approach to Cylinder Face Installation—S. E. Fuller	40	Apr. 2
New Type of Hardboard Plant in Yugoslavia	54	Dec. 10
Outlook for Paperboard Demand	30	Jul. 9
Pioneering Semi-Chemical Food Board at Crossett's New Mill—John C. W. Evans	24	Apr. 2
Practical Application of Fluorescent White Dyes to Paper and Board—J. Gessner	26	Jan. 23
Recent Solutions to Odor and Flavor Problems in Food Boards and Papers —L. C. Cartwright and M. W. Browne	42	Jun. 11
Some Problems Involved in the Beater Sizing of Paper and Board—R. K. Churchill and H. L. Martin	20	Apr. 9
World's Fastest Cylinder Boardmaking . . . How Gibraltar Does It	39	Jun. 18

Converting

Bird & Son Sets Record for Erecting New Corrugator	50	Sept. 24
Converter Product Trends—J. R. Mutzabaugh	21	Dec. 24
C-Z Introduces a New Concept in Tissue Making and Converting—E. F. Barker	42	Nov. 19
Corrugated Box Costs are Increasing—A. A. Newburg	52	Dec. 10
Developments in the Canadian Shipping Container Industry — J. McK Limerick and L. D. Richardson	52	Aug. 13
Fiber Box Production Makes New Gains —P. L. Brockington	38	Dec. 3
How Gummed Tape Manufacture is Controlled by Isotope Inspection — H. E. Carlson	22	Apr. 23
How a Packaged Boiler Solves Production for Mohawk Container	40	Sept. 10
How Rust Craft Controls Paper Moisture—F. W. Rust, Jr.	26	Jan. 9
How the Package-Push Launched Folding Cartons to New Peaks—D. M. Hunter	30	Jun. 4
K. C. Moves into California	30	Nov. 12
New Efficient Scrap Disposal System at a Box Plant	33	Feb. 20
New Jax Plant Spearheads Drive for Citrus Business—C. E. Wright	34	Nov. 5
New Method of Increasing Drying Capacity of Paper Machinery—O. Hultgreen	47	Apr. 16
New Plastic Coating for Printing Finishing—H. E. Crawford, Jr.	24	Mar. 26
Ozalid's New Tuplex Coating Machine Proves Success of Unusual Design — J. W. Brusil and M. I. Kaganowich	26	Jan. 16
Pap-O-Net — a Brand New Paper Product	36	Nov. 12
Recent Solutions to Odor and Flavor Problems in Food Boards and Papers —L. C. Cartwright and M. W. Browne	42	Jun. 11
Simpson Installs First West Coast O-M Coater	22	Apr. 2
What the Converter Wants from the Paper and Board Mills—S. L. Goldheim	22	Oct. 1
What's Unique About the Trailing Knife Coater?—P. A. Peterson	22	Dec. 31

Engineering

Aquavac — New Method for Increased Drying—Jack Mazer	34	Apr. 2
Better Cleaning of Conveyor Belts — A. D. Sinden	37	Nov. 26
Centrifugal Pumps Need Your Help—J. A. Cable	34	Mar. 19
Constant Chlorine Pressure Gives Uniform Bleaching—R. Wheless	46	Feb. 20
Couch Roll Growing Pains—J. S. Major	18	Jul. 9
Get to Know Your Greases—H. Sprague and R. E. Gravrock	22	Mar. 12

Here are Some Answers to Stress-Corrosion Cracking of your Piping — H. Thielsch 44 May 14
How a Drafting Board Can Reduce Your Maintenance—H. G. Ingraham 46 Jul. 16
How a Modern Mill Laboratory Was Engineered—J. E. York 16 Dec. 24
How and Why of Rubber Covered Rolls —R. M. Leighton
I—The Modern Fourdrinier 32 Jun. 11
II—The Cylinder Machine 34 Jun. 25
III—Trends on Tissue and Other High Speed Machines 24 Jul. 2
How Hammermill's Expansion Project was Engineered and Constructed — K. C. Neuenfeldt 14 Jan. 2
How Chesapeake has Rebuilt its Kraft Paper Machine — R. M. Tokarz and Bruce Otis 42 Dec. 10
How Pabco Speeds Drying With Gas Burners—A. Q. Smith 16 Jan. 16
How Plastic Pipe is Used in our Mills—D. T. Skowlund 38 Feb. 20
How to Install and Maintain Gears and Gear Drive—C. W. Miller 44 Sept. 10
How Vacuum Bonded Clad Material Gives Corrosion Protection — R. C. Bertossa 52 Sept. 17
Modernizing a Press System With an Air Bleed Press at Wisconsin Rapids —M. V. Molsberry 46 Feb. 20
Selection and Maintenance of Transmission Belting—A. V. Smith 32 Apr. 16
Use of Closed Circuit Television—G. I. Burner 42 Apr. 16
Which Fuel Oil System—M. K. Bond 26 Aug. 20
You Can Cut Pump Maintenance Costs With Eductor Vanes—C. R. McFarland 24 Mar. 19

Finishing

How M.T.M. Techniques are Used in Finishing Operations — R. Noel-Bentley 38 Oct. 22
How to Plan and Carry Out Effective Finishing Maintenance—E. F. Barker and B. L. Merriss 32 Dec. 3
Lower Finishing Costs Through Time and Motion Study—A. N. Timberlake 26 Jul. 23
New Automatic Roll Wrapping System Introduced at Powell River — Colin Campbell 40 Jun. 11
New Finishing Plant at Bergstrom 48 Dec. 17
Powell River's New Sheeter — R. W. Chapell 26 Oct. 29

Forecasts

Canadian Industry Looks 25 Years Ahead 33 Feb. 6
Current Pulp Situation and Immediate Outlook—J. K. Larson 30 Jul. 2
Future Requirements—Magazine Paper —Dr. Louis T. Stevenson 42 Oct. 29
Its Time to Total Up our Expansion Projects 45 Jun. 18
Outlook for Paperboard Demand — W. F. Westcott 30 Jul. 9
Should Paper Export Remain the Industry's Stepchild—T. S. Greiner 42 Jul. 16
Where's the Wood Coming From? — H. E. Young 20 Apr. 30

Groundwood

Great Northern Develops New Product from Chemi-Groundwood — D. F. Polard 24 Oct. 29
Groundwood Mill Instrumentation — E. J. Cole and M. Todd 45 Oct. 22
How Gould Paper Pioneered Most Significant Pulping Process of Century—John C. W. Evans 24 Nov. 12
Instrumentation of a Chemi-Groundwood Mill—E. J. Cole and M. Todd 42 Dec. 3
New Developments Improve Storra's Groundwood Operations—B. Soderberg 46 Jul. 11
New Principles for Groundwood Screening—K. H. Klemm 20 Jan. 2
Today's Thinking on Groundwood Mill Maintenance—J. A. McLean 24 Apr. 9
Use of Sodium Sulphite at the Grinder Showers—J. A. Cochrane 30 Apr. 23
Wider Scope for Groundwood from Chips — Lee Eberhardt 30 Feb. 20

Hardwood Utilization

Great Northern Develops New Product from Chemi-Groundwood — D. F. Pollard 24 Oct. 29
How Gould Paper Pioneered Most Significant Pulping Process of Century—John C. W. Evans 24 Nov. 12
New-Fast-Continuous Cold Soda Hardwood Pulping Process—K. J. Brown and R. D. Hilton 42 May 21
Wider Scope for Groundwood from Chips—Lee Eberhardt 30 Feb. 20

Instrumentation

Constant Chlorine Pressure Gives Uniform Bleaching at Camp—R. Wheless 46 Feb. 20
Groundwood Mill Instrumentation — E. J. Cole and M. Todd 45 Oct. 22
How to Develop an Instrument Maintenance Department—R. B. Lundy 30 Mar. 26
Instrumentation of a Chemi-Groundwood Mill—E. J. Cole and M. Todd 42 Dec. 3
Instrumentation for Kamyr Continuous Cooking of Kraft Pulp—E. J. Cole and M. Todd 44 Nov. 26
Instrumentation of a Continuous Semi-Chemical Pulp Mill—E. J. Cole and M. Todd 46 Nov. 19
Instrumentation of Bleach Plants—E. J. Cole and M. Todd 38 Nov. 12
Kraft Pulp Mill Instrumentation—E. J. Cole and M. Todd 30 Oct. 24
New Approach to Paper Formation Measurement—W. Jamison 30 Oct. 8
Organization and Duties of a Mill Instrument Department—E. J. Cole and M. Todd 58 Dec. 10
Papermaking Instrumentation—Part I—E. J. Cole and M. Todd 44 Oct. 8
Part II—E. J. Cole and M. Todd 36 Oct. 15

Principles of Automatic Control—E. J. Cole and M. Todd 52 Sept. 24
Principles of Controllers — E. J. Cole and M. Todd 30 Oct. 1
Measurement of Process Variables—E. J. Cole and M. Todd 40 Sept. 17
Sulphite Mill Instrumentation — E. J. Cole and M. Todd 42 Nov. 5

Kraft Pulping

Dissolving Pulp for Rayon Tire Cord-End Use Requirements — Forestier Walker 21 Sept. 3
First Complete Description of East Texas Mill 28 Jul. 30
Four Ways to Cut Cost of Operating Your Lime Sludge Kiln—E. C. Mertz 36 May 7
Instrumentation for Kamyr Continuous Cooking of Kraft Pulp—E. J. Cole and M. Todd 44 Nov. 26
Kraft Cooking for Easy-Bleaching and Board Pulps—F. W. Bishop 28 Jan. 9
Kraft Pulp Mill Instrumentation—E. J. Cole and M. Todd 30 Oct. 29
Latest Advances in High Yield Kraft Pulping—J. McK Limerick 20 Jan. 23
Practical Step Towards Eliminating Dissolving Tank Explosions—C. R. P. Cash 28 Apr. 9
Recent Pulping Trends in Scandanavia —E. Hagglund 24 Mar. 5
What Causes Kraft Dissolving Tank Explosions—W. Nelson and E. H. Kennedy—I Laboratory Experiments 50 Jul. 16
II Mill Investigations— 30 Jul. 23

Maintenance

A Fresh Approach to Fourdrinier Maintenance Procedure — M. L. Boinest and C. L. Wills 36 May 14
Calender Stack Maintenance — W. L. Wendell 22 Jul. 9
Cutting Pulp Mill Maintenance Costs at Hammermill—W. R. Whitley 18 Oct. 1
Follow These 20 Tips for Longer Belt Life—N. Perry 39 May 14
How a Drafting Board Can Reduce Your Maintenance—H. G. Ingraham 46 Jul. 16
How to Install and Maintain Gears and Gear Drives—C. W. Miller 44 Sept. 10
How to Organize and Operate a Program for Training Maintenance Personnel—E. F. Barker 36 Nov. 14
How to Plan and Carry Out Effective Finishing Maintenance—B. L. Merriss and E. F. Barker 32 Dec. 3
How Industrial Trucks are Maintained at E. B. Eddy Co.—D. D. Hall 16 Mar. 5
How to Develop an Instrument Maintenance Department—R. B. Lundy 30 Mar. 26
How to Maintain Stock Preparation Equipment—J. A. Marcalus 22 May 28
How to Organize a Better Maintenance Department—S. H. Grimes 24 Feb. 20
Let's Put Lubrication in New Perspective T. M. Medzwiecki 22 Apr. 30
Maintenance at a Semi-Chemical Mill—E. Saunders 39 Aug. 6
Maintenance of Electrical Transformers 32 Mar. 19
Maintenance Problems of the Smaller Mill—A. J. Vreudenberg 26 Apr. 23
New Approach to Cylinder Face Installation—S. E. Fuller 40 Apr. 2
New Ideas and Tools for Better Plant Maintenance 18 Feb. 13
New Solution to Rotary Digester Bearing Troubles 42 May 14
Power Plant Maintenance at the Crown Zellerbach Camas Mill—J. A. Swanson 44 Sept. 24
Tips on Grinding Rubber Covered Rolls —A. C. Lutz 50 Oct. 15
Today's Thinking on Groundwood Mill Maintenance—J. A. McLean 24 Apr. 9
What a West Coast Mill Does About Its Woodroom Maintenance Problems—R. Hogan 22 Jul. 30
What an Engineered Lubrication Program Involves and How to Organize One—T. Medzwiecki 24 Jun. 4
What Equipment is Necessary for Electrical Maintenance—J. Eyton 36 Dec. 17
What is the Role of the Consultant in Paper Mill Maintenance? — H. W. Roos 34 Jun. 11
What the New Techniques in Chemical Cleaning Can Do for Your Equipment—E. W. Hudgens 16 Mar. 12
Woodyard and Woodroom Maintenance at Brunswick—J. R. Girardeau 32 Sept. 3
Yankee Dryer Maintenance at Scott Paper Co.—C. H. Schatz 48 Nov. 5
You Can Cut Pump Maintenance Costs With Eductor Vanes—C. R. McFarland 24 Mar. 19

Materials Handling

Conveyors and Other Handling Equipment in Pulp and Paper Mills—S. T. Penick 20 Jul. 23
Driverless Tractor Hauls Loads for Beckett 60 Sept. 17
How Industrial Trucks are Maintained at E. B. Eddy Co.—D. D. Hall 16 Mar. 5
How Newton Falls Makes Extensive Use of Industrial Trucks—C. Jessup 14 Dec. 31
Mill Management Looks at Material Handling—J. W. Shimp 32 Jun. 25
Tong Hoist Handling at Sealright 34 Jun. 18

Mill Descriptions

C. Z. Introduces a New Concept in Tissue Making and Converting—E. F. Barker 42 Nov. 19
Careful Planning Marks Progress of J. P. Lewis and Brownville Board 26 May 28
Expansion at La Tuque Features Widest Liner Board Machine—John C. W. Evans 24 Aug. 6
First Complete Description of East Texas Mill 28 Jul. 30
First Newsprint Mill in the South Continues to Grow—John C. W. Evans 51 Nov. 19
How Chesapeake has Rebuilt its Kraft Paper Machine—R. M. Tokarz and Bruce Otis 42 Dec. 10
How Gould Paper Pioneered Most Sig-

nificant Pulping Process of the Century—John C. W. Evans 24 Nov. 12
How Hammermill's Expansion Project was Engineered and Constructed — K. C. Neuenfeldt 14 Jan. 2
K-C Moves into California 30 Nov. 12
Many Interesting Features on New Longview Machine—E. F. Barker 32 Apr. 2
New Type of Hardboard Plant in Yugoslavia 54 Dec. 10
Pioneering Semi-Chemical Food Board at Crossett's New Mill—John C. W. Evans 24 Apr. 2
Preview of Crown Zellerbach's Unique Antioch Mill—E. F. Barker 26 Mar. 26
R-W Mill at Longview: New Greaseproof and Glassine Producer 48 Sept. 17
The Smallest New Mill—John C. W. Evans 28 Nov. 26
What Warren is Doing to Convert Central to Printing Papers—Bruce Otis 22 Feb. 13
World's Fastest Cylinder Board Making —How Gibraltar Does It 39 Jun. 18

Papermaking

A Fresh Approach to Fourdrinier Maintenance Procedure — M. L. Boinest and C. L. Wills 36 May 14
Aquavac—New Method for Increasing Drying—Jack Mazer 34 Apr. 2
Automatic Control of Dryer Drainage —S. K. Pratt 24 Jan. 23
Balanced Pressure Differential Offered in New Dryer Drainage System 58 Aug. 13
Beckett Starts Up Third Machine 23 Aug. 2
Couch Roll Growing Pains—J. S. Majors 18 Jul. 9
C-Z Introduces a New Concept in Tissue Making and Converting—E. F. Barker 42 Nov. 19
Establishing a Quality Control Program in the Paper Mill—R. E. Wartham and M. E. Blew 26 Jul. 9
Glass Fibers in Papermaking — S. W. Schulmeyer 26 Oct. 1
How a Moving Air Cushion Improves Fourdrinier Formation and Drainage —S. C. Sullivan 32 Nov. 28
How and Why of Rubber Covered Rolls
I—The Modern Fourdrinier—R. M. Leighton 32 Jun. 1
III—Trends on Tissue and Other High Speed Machines—R. M. Leighton 24 Jul. 2
How High a Pressure Can You Put in Your Old Dryers 42 May 7
How Pabco Speeds Drying with Gas Burners—A. Q. Smith 16 Jan. 16
How Powell River Rebuilt No. 7 34 May 28
How Swanee Uses Deflectors to Improve Formation and Drainage—Bruce Otis 39 May 7
How You can Reduce Defective Paper Production—G. Fredericks 18 Jan. 16
Many Interesting Features on New Longview Machine—E. F. Barker 32 Apr. 2
Modernizing a Press System With Air Bleed Press at Wisconsin Rapids — M. V. Molsberry 42 Feb. 20
New Approach to Paper Formation Measurement—W. Jamison 30 Oct. 8
New Machine Singes Felts in One Pass —T. F. Rapp 18 Jan. 2
New Method of Increasing Drying Capacity of Paper Machinery—O. Hultgreen 47 Apr. 16
New Sale-All Installation at Byron Weston—George Soyka 22 Jan. 9
Nicolet's Experience with the Vorvac System—H. B. Wenberg 34 Jan. 30
Paper Machine Instrumentation, Part I —E. J. Cole and M. Todd 42 Oct. 8
Practical Application of Fluorescent White Dyes to Paper and Board — J. Gessner 26 Jan. 23
Quality Control of Book Paper at S. D. Warren—J. F. Langmaid, Jr. 42 Aug. 13
R-W Mill at Lonview: New Greaseproof and Glassine Producer 48 Sept. 17
Recent Solutions to Odor and Flavor Problems in Food Boards and Papers —L. C. Cartwright and M. W. Browne 42 Jun. 11
Short Discussion of Size Pressing and Tub Sizing — D. C. Currie, M. C. Wyatt, and J. E. Taylor 38 Mar. 26
Some Problems Involved in the Beater Sizing of Paper and Board—R. K. Churchill and N. L. Martin 20 Apr. 9
Synthetic-Fiber Papers Proved in Pilot Mill Runs 38 Mar. 5

Personnel

How Ohio Boxboard Developed a Supervisory Training Program 34 Nov. 12
How to Organize and Operate a Program for Training Maintenance Personnel—E. F. Barker 36 Nov. 19
How Training Begets Training at Union Bag—E. J. Bartlett 48 May 21
Looking Squarely at Technical Manpower Shortage—H. J. Daysh 38 Aug. 20
Making Switch Gear Tagging Foolproof—J. S. Turner 18 Dec. 31
Want to Read Faster? Here's How — N. B. Smith
Heeding the Sign-posts 30 Jan. 9
How to Read and Recall Details 30 Jan. 23
More on How to Read and Recall Details 24 Feb. 6
How to Adjust to Different Patterns of Reading 30 Feb. 13
How to Preview a Selection 30 Mar. 5
How to Skim 30 Mar. 12
How Well Do You Read Now? 27 Mar. 19
What the 1956 Labor Contract Patter Looks Like 28 Sept. 3

Production Statistics

A Detailed Look at the First Nine Months—W. LeRoy Neubrech 40 Dec. 17
Collective Bargaining Developments 41 Dec. 17
Raw Material Trends—W. T. Jones 42 Dec. 17
Paperboard Production Trends—Fred Bryer 44 Dec. 17
Paper Production Trends — Wallace H. Pederson 45 Dec. 17
Converter Product Trends — J. R. Mutzabaugh 21 Dec. 24
Board Production and Consumption Trends—W. F. Westcott and A. A. Newburg 25 Dec. 24

	Page	Date
Canada's Industry Once Again Moves Forward—R. M. Fowler	50	Jan. 30
Earliest Complete Picture of the First Six Months:		
Pulp, Paper and Board Economic Review—W. L. Neubrech	32	Sept. 24
Paper and Board Trends — W. H. Pederson	33	Sept. 24
Raw Material Trends — W. T. Jones	35	Sept. 24
Converted Paper and Paperboard Products—J. R. Mutsabaugh	40	Sept. 24
Fiber Box Production Makes New Gains —P. L. Brockington	38	Dec. 3
New Heights Scaled in '55 — Outlook for '56 Excellent—John C. W. Evans	51	Jan. 30
New Tonnage Peak Makes '55 the Industry's Biggest Year—M. C. Dowbrow	59	Feb. 27
Our Industry Still Expanding at Accelerated Rate	26	Jul. 30
Paper and Board Production First Nine Months—J. H. Vogel	29	Dec. 3
Review and Forecast 1955-1956	37	Jan. 30
The Pattern of Industry Growth 1930-1955—J. H. Vogel	36	Nov. 5
Three Year Forecast of Paper and Board Production Capacity — 1955-1958 — J. H. Vogel	48	Jul. 16

Pulp and Stock Cleaning

A Board Mill Stock Cleaning System—E. L. Stentz	18	Jul. 2
How a Centriffler Improved Waste Paper Stock Cleaning for Tilo — C. M. Harper	16	Oct. 1
New Principles for Groundwood Screening—K. H. Klemm	20	Jan. 2
Nicolet's Experience With the Vorvac System—H. B. Wenberg	34	Jan. 30
What the Deculator-Cleaner Has Done on Longview's No. 6 Machine	48	Oct. 15

Semi-Chemical

How a Mill Size Sodium Base Pilot Recovery Plant Run was Made—R. A. Nugent and R. Q. Boyer	29	Apr. 30
How Hammermill's Expansion Project was Engineered and Constructed—K. C. Neuenfeldt	14	Jan. 2
Instrumentation of a Continuous Semi-Chemical Pulp Mill—E. J. Cole and M. Todd	46	Nov. 19
Maintenance at a Semi-Chemical Mill—E. Saunders	39	Aug. 6
New-Fast-Continuous Cold Soda Hardwood Pulping Process—K. J. Brown and R. D. Hilton	42	May 21
New Solution to Rotary Digester Bearing Troubles	42	May 28
Novel Smelt Jetting Method and Smelt Component Separation at Nekoosa—R. A. Nugent and R. Q. Boyer	30	May 7
Pioneering Semi-Chemical Food Board at Crossett's New Mill—John C. W. Evans	24	Apr. 2
Recent Pulping Trends in Scandinavia—E. Hagglund	24	Mar. 5
Semi-Chemical Pulp Mills in the U. S. and Canada	24	Aug. 20
What's the Score on N.S.S.C. Recovery?	22	Dec. 24

Stock Preparation

A Finger Tip Control System for Stock Preparation—Lloyd Barrett	36	Sept. 10
How to Maintain Stock Preparation Equipment—J. A. Marcalus	22	May 28
Improving Stock Preparation at Muskingum—W. D. Lewis	32	Oct. 22
New Deinking Processes Use Electrical Treatment—E. F. Barker	30	Aug. 6

Sulphite

Dissolving Pulp for Rayon Tire Cord End-Use Requirements — Forestier Walker	21	Sept. 3
How a Mill Size Sodium Base Pilot Recovery Plant Run Was Made—R. A. Nugent and R. Q. Boyer	29	Apr. 30
Recent Pulping Trends in Scandinavia—E. Hagglund	24	Mar. 5
Sulphite Mill Instrumentation — E. J. Cole and M. Todd	42	Nov. 5
Sulphite Waste Liquor in Cement Manufacture—E. Langins and H. Snow	20	Jan. 16

Waste Paper

How a Centriffler Improved Waste Paper Stock Cleaning for Tilo—C. M. Harper	16	Oct. 1
How the Kalamazoo Valley De-inking Mills Solved Their Waste Disposal Problems—E. F. Barker	30	Dec. 17
New Efficient Scrap Disposal System at a Box Plant	33	Feb. 20
New Method of Tying Waste Paper and Scrap Bales	24	Aug. 20

Wood Handling

How Much Wood in a Cord of Slabs?—J. A. Holekamp	33	May 28
How to Measure Wood in Moving Conveyors — R. G. Belcher and W. H. Martin	48	May 14
Is There Enough Southern Pulpwood for Present and Projected Mills?	30	Aug. 20
Mid River Log Sorting in Maine	33	Jun. 4
New Mechanical Debarker Uses Cambium Shear Principle	38	Mar. 19
What a West Coast Mill Does About Its Woodroom Maintenance Problems—R. Hogan	22	Jul. 30
Woodyard and Woodroom Maintenance at Brunswick—J. R. Girardeau	32	Sept. 3

Miscellaneous

Fibreboard Develops a Porosity Tester	27	Jul. 2
Four Principles for Electrocution of Insects	29	Jul. 9
How Bergstrom Stabilizes Softened Process Water—D. F. Petersen	28	Jul. 2
Requirements of a Pulp for the Manufacture of Cellulose Film — J. P. Beaudry	24	Aug. 27
Sall Mountain's Unusual Effluent Treatment Plant—E. F. Barker	16	Aug. 27
